

Outlook

WORLD OF FIREPLACES | 28 to 30 April 2025 | Leipzig

International trade fair for fireplaces and cosy ambience of living

Early booking price
until 29 March 2024

WORLD OF FIREPLACES: International trade fair for fireplaces and cosy ambience of living

With the premiere event in 2023, WORLD OF FIREPLACES attracted over 240 exhibitors and brands and over 8,000 trade visitors from all over the world. The trade fair bundles know-how on the subject of comfort and warmth. Manufacturers and suppliers are given their own platform to present their products and services – from the world of fireplaces and home ambience. Globally active decision-makers are drawn to Leipzig as the future network hub of the industry.

The focus of WORLD OF FIREPLACES on this future-oriented industry promises you business success as an exhibitor!

Frank Kienle
Managing Director
HKI

"With this trade fair, we are taking the industry to the next level and, thanks to Leipzig as a trade fair location, closer to political perception.

This is reflected above all in our open lecture and dialogue platform, the Fireplace-HUB. In addition, with its sustainable solutions and heating concepts, the industry is once again underlining the system-relevant role of wood in a climate-neutral economic system and making it clear that sustainably cultivated biomass is an essential component of the circular economy and climate-neutral building."

Nikolaus Fleischhacker
Managing Director / CEO
ORANIER

"An international trade fair for fireplaces is very important for the industry in many respects. Of course, it serves to present product innovations and to initiate dialog with dealers, the trade and service providers. But it is also an attention-grabbing platform for political lobbying, which is particularly important right now. We are very much looking forward to 2025 and the renewed exchange with all market participants about current

trends and developments that will be decisive for the future of our industry. A great deal will move between now and then, and we will experience exciting times."

Robert Mülleneisen
CEO
GVOB

"The World of Fireplaces in Leipzig is an important forum

for the GesamtVerbandOfenBau to send strong signals to the public for wood as the energy of the future and for modern wood-burning stoves. As a strong voice of the industry, we are active throughout Europe in a continuous dialogue with stove builders, trade, manufacturers, with partner associations, with political decision-makers and the public. We are looking forward to participating in the World of Fireplaces in 2025, to the exchange and expert discussions about natural heating with wood and with modern technologies."

Exhibitor of WORLD OF FIREPLACES 2023

You can get a comprehensive review of 2023 here:

How successful was the exhibitors' presence at the fair?

What is the probability that these exhibitors will exhibit again in 2025?

The Fireplace to be

WORLD OF FIREPLACES offers fireplace and stove manufacturers, the entire trade, specialist markets, retailers, chimney sweeps, architects, interior designers, energy consultants, fuel retailers, housing associations, media representatives and bloggers an exceptional platform. International trade visitors come to Leipzig to discover innovations, expand knowledge, make contacts, find solutions and initiate sustainable business.

WORLD OF FIREPLACES is aimed specifically at trade visitors from Europe and all over the world.

Trade fair business redefined

Short distances, good infrastructure and perfect networking

Globally active companies, established medium-sized businesses, big brands or smart newcomers from the industry meet at WORLD OF FIREPLACES in Leipzig.

The focus is on the product groups: Stoves, fireplaces, heating systems, fuels, decorative fireplaces, flue systems, emission reduction technologies, hybrid heat, ceramics, boiler and storage technology, control technology, smart home and accessories. You too can use the trade fair as the perfect opportunity to present your innovations and highlights to an international trade audience.

Admission is for trade visitors only.

Internationality of WOF Exhibitor

Trade visitors came from around 60 countries.

In 2023, 240 exhibitors and brands came from a total of 25 countries. WOF 2023 attracted 8,135 trade visitors

Visitor

from over 60 countries. The longest journeys were made by visitors from Israel, Australia, China, the USA, Canada, Mongolia, Ghana, the United Arab Emirates and South American countries.

WORLD OF FIREPLACES

Top Service

Coveted services at the WOF

From signage to parking services, from check-in to high-performance mobile phone reception plus free Wi-Fi. In addition to electricity, water, sewage, LAN and ceiling suspensions, the WORLD OF FIREPLACES offers further individual services:

- Mention of several brands per exhibitor
- Lead tracking system to capture your visitors
- Extensive photo documentation of your use
- Cashless catering service
- Stand cleaning and guarding
- Loading and unloading service, storage of empties
- Hostess service

- Hotel service
- Technical service
- Exhibitor parking
- Level access to the exhibition grounds
- High floor load capacity

So that you can concentrate on what is most important: Your customers and successful business.

Special show Hybrid Heat

Different solutions for hybrid heat generation will be presented at the special "Hybrid Heat" area. This special show offers space for discussions with suppliers and visitors, awakens understanding and creates new potential. In addition, this project promotes cooperation both between industry suppliers and between tradesmen from the various trades.

The special "Hybrid Heat" area at WORLD OF FIREPLACES provides an opportunity to present these solution variants to key politicians and to argue their advantages.

Outdoor Show

Here, the outdoor fireplaces product group is presented exactly where it belongs: outdoors. The products of a manufacturer can be experienced live. A roof can easily be added here.

The presentation area on the outdoor area has another advantage: every trade visitor passes the outdoor area and thus directly by the outdoor presentations. When entering and leaving the fair.

WORLD OF FIREPLACES

Flexible booking

No matter whether small or large. No matter if it's the second time or new. Whether outside or in the hall. Whether your own stand construction or turnkey.

Here we make sure that you are optimally presented. So that you reach your target audience.

Fireplace HUB

Discover trends – share knowledge

The Fireplace HUB represents an additional added value for the people of the branch. A valuable industry portal for knowledge transfer and networking is established here. There will be discussions, debates and presentations on "hot" topics that move the industry, such as air pollution control, hybrid heat, security of supply, trade and other specialist topics. Decision-makers from industry and associations enter into dialogue with trade visitors.

The Fireplace HUB offers informative programme items every day during the fair and is free of charge for fair visitors.

Statements from the industry

Norbert Müller
Managing Director
Gutbrod Keramik GmbH

"At WORLD OF FIREPLACES we see the complete value chain of fireplaces represented. Therefore, as a traditional company for stove ceramics, we will also be present. Gutbrod Keramik has been manufacturing high-quality ceramics for tiled stoves and fireplaces since 1869. WOF 2025 is set for us."

Markus Grassegger
Sales management
SPARTHERM

"We are extremely satisfied with the response. All long-standing existing customers accepted our invitation to Leipzig. In addition to regular customers, we were able to attract numerous new customers - also due to the joint brand presence of Spartherm, DRU and BRULA. [...]"

Christiane Wodtke
Managing Director
wodtke GmbH

"wodtke focuses on hybrid heating systems. As a pellet pioneer and one of the leading manufacturers of innovative pellet and wood-burning stoves, we offer forward-looking solutions for heating and cosy warmth in the home. [...] We are looking forward to the next WORLD OF FIREPLACES 2025."

Join the WOF family

At the right place to the right time

International – the WORLD OF FIREPLACES is where the world of the world of fireplaces meets. The trade fair location Leipzig is easily accessible in the middle of

Germany. With its good connections by car or train and international airport, the modern exhibition centre invites you to valuable discussions.

Leipzig – an attractive trade fair city with history

With a tradition going back 850 years, the trade fair city of Leipzig is one of the oldest trade fair locations in the world. As early as the 12th century, so-called market events with supra-regional significance were held under the name Leipziger Messe. In addition to its tourist appeal, Leipzig convinces with pleasant hotel prices, good infrastructure and proximity to the political stage.

- Fair hours for visitors:
28 to 30 April 2025, daily from 9 am – 6 pm.

4.0 Exhibition Regulations / Conditions of Participation

4.1 Event

4.1.1 The organiser of the trade fair is trendfairs GmbH, Stefan-George-Ring 2, 81929 Munich, represented by the managing directors Michael Rambach and Claudia Weidner.

4.1.2 Participation in the event is subject to a corresponding agreement between the organiser and the exhibitor. This becomes effective upon registration by the exhibitor and confirmation of participation by the organiser.

4.2 Registration

4.2.1 The exhibitor's application to take part has to be submitted in writing to the organiser using the organiser's forms. The application form must be completed in full and have a legally binding signature. By signing this document, the exhibitor accepts the exhibition regulations/general conditions of participation (and separately event conditions on our website www.world-of-fireplaces.de/exhibitor/conditions-of-participation).

4.2.2 Reservations and conditions are not permitted during registration. If such are entered on the registration form, they shall be considered as legally void, unless they are confirmed in writing by the organizer.

4.2.3 The decision with respect to accepting the application for participation and allocating the stand is made by the organiser with the diligence of a prudent businessperson and within the bounds of available space. In case of overbooking, the order of receipt of applications shall be decisive. There is no entitlement to participate.

4.2.4 The organiser may, for objectively justified reasons, in particular if the available exhibition space is not sufficient, exclude individual applicants from participation and / or, if this is necessary for the achievement of the event objective, restrict the event to certain exhibitor groups or supplier groups or reduce the desired stand size.

4.2.5 The exhibitor shall receive written confirmation of participation when the application for participation is accepted. The stand number, stand size and other details of the stand occupancy shall be provided in a separate written notification.

4.2.6 The stands are allocated by the organiser on the basis of considerations that are determined by the theme of the exhibition. Exhibitors are not entitled to assignment of particular stand areas and do not become entitled to this even if they have occupied the same area at one of the organizer's previous events. The organizer will, however, take requests for specific stands into consideration as far as is possible. An area that is allocated with a +/- 10% difference is within the range of tolerance and does not require consultation with the applicant.

4.3 Stand design

4.3.1 The stand design and set-up required for this are a matter for the exhibitor. The exhibitor is required to respect the character and image of the event. The event organiser is entitled to stipulate certain arrangements in this regard. The exhibitor shall be responsible for complying with safety regulations. Stands that adversely affect the overall image of the event shall not be accepted by the organizer. The same applies to unacceptable advertising messages.

4.3.2 The allocated stand dimensions must not be exceeded. The maximum stand height is 3.50 metres. Stand heights that deviate from this require the consent of the trade fair management. Hall ceiling attachments also require the consent of the trade fair management. The rear sides of stand partition walls over 2.50 m in height must have a pure white and visually flawless surface. In particular, they must not display any text or graphics.

We recommend an open stand design for peninsula stands and island stands.

It is the stand owner's job to check the statics. A maximum of 100 kg is permitted per suspension point.

4.3.3 Operating obligation: The exhibitor is obliged to occupy the stand for the entire duration of the event during opening hours. There is an operating obligation. Personnel must be in attendance at the stand for the entire duration of the WORLD OF FIREPLACES event. Removal of exhibition goods and dismantling of the stands is not permitted before the official end of the trade fair WORLD OF FIREPLACES. If the operating obligation is violated, the event organiser is permitted to levy a contract fine of 20% of the basic rent.

4.3.4 The sub-letting of stand areas or other transfers to third parties is forbidden. In the event of an infringement, the event organiser is entitled to extraordinary termination of the participation agreement without notice. In such a case, the exhibitor shall remain liable for the payment of the agreed stand rental and any other costs. Co-exhibitors with their own application are exempt from this regulation.

4.3.5 The Exhibitor is obliged to complete the stand within the period specified in the Exhibitor Information. The participant shall bear the costs incurred by the organiser due to late completion or even, for whatever reason, failure to construct the stand.

4.4 Early termination of the contract

4.4.1 Exhibitors shall be bound by their applications up to 3 months before the start of the exhibition. No provision is made for an ordinary termination of the participation agreement. The right to extraordinary termination remains unaffected.

4.4.2 If an exhibitor cancels their participation after confirmation of participation has been given up to 3 months before the event begins, they shall owe 40% of the agreed stand rental as flat-rate compensation. If cancellation is made after this time (and after confirmation of participation has been given), the exhibitor shall owe 100% of the agreed stand rental as flat-rate compensation. Cancellations must be made in writing. The right of the exhibitor to prove that damage has not occurred, or is equivalent to a much lower amount than the agreed compensation, shall remain unaffected. In the event of cancellation or other unauthorised rescinding of the contract, the organiser is entitled, but not obliged, to use the stand area as they see fit.

4.4.3 The organiser is entitled to withdraw from the contract, or to extraordinarily terminate it without notice if the important grounds lie within the person of the exhibitor. Such grounds shall exist, in particular, if an application for the launch of insolvency proceedings has been made against the exhibitor, such an application was rejected for lack of assets, or insolvency proceedings have already been opened.

4.5 Invoicing / payment

4.5.1 The down payment invoice amounting to 25% of the booked stand area plus energy contribution, marketing contribution, exhibitor insurance and the desired stand type shall be made approx. 12 months before the start of the event or immediately if the booking is received later than 12 months before the start of the event. The down payment invoice shall be payable immediately and in full upon receipt.

4.5.2 The invoice for participation and other costs incurred shall be issued approximately 12 weeks before the start of the event. The invoice for the participation shall be payable immediately and in full upon receipt.

4.5.3 There shall be no right to participate unless all due payments to trendfairs GmbH have been settled.

4.5.4 The organiser shall be entitled to extraordinary termination of the participation agreement without notice if, despite reminders, the exhibitor has not made due payments to trendfairs GmbH.

4.5.5 The event organiser reserves the right to assert the statutory lessor's lien.

4.6 Force majeure

4.6.1 If there are urgent reasons that are not the fault of the organiser, or in cases of force majeure, the organiser has the right to postpone, shorten, lengthen, or cancel the event.

4.6.2 In such an exceptional case, exhibitors shall neither be entitled to withdraw from the contract nor to claim compensation.

4.6.3 If the event does not take place for reasons for which the organiser cannot be held responsible, the organiser may require the exhibitors to pay up to 25% of the agreed participation fee as a general compensation for expenses.

4.6.4 If an event that has already opened has to be cancelled for reasons for which the organizer is not responsible, no refund of the participation fee and other payments will be made.

4.6.5 The organiser is not liable to the exhibitor for damages and other disadvantages arising from a cancellation or abandonment of an event for reasons for which the organiser cannot be held responsible.

4.7 Place of fulfilment/Place of jurisdiction

4.7.1 Place of jurisdiction is Munich, place of fulfilment is Fürth. The organiser is entitled, if they so wish, to bring an action against an exhibitor at the court with jurisdiction over the exhibitor's place of business.

4.7.2 German law shall apply exclusively.
